# WHO WE ARE

## ABOUT US

Founded in 2006, the idea behind UK Custom Covers was born from a disappointing experience with a Hardtop Cover for a BMW E46. The cover was loose, baggy, and simply didn't meet expectations. After conducting thorough research, it became clear that the only truly custom-fit covers available were extremely expensive, while other alternatives were universal covers that lacked waterproof guarantees and were made of questionable materials, failing to provide the necessary protection.

BMW E46: The Journey Begins

Recognising an opportunity, the concept of creating affordable, custom-fit covers for vehicles became clear. UK Custom Covers was founded with the goal of offering the ultimate protection at a reasonable price, tailored specifically to each vehicle's year and model. This idea quickly gained traction, and as the company grew, so did our product offering- expanding to include over 40 different ranges of covers.

Our speciality evolved to include both universal and tailored seat covers, serving the B2C and B2B markets with the same commitment to quality, innovation, and affordability that customers have come to expect from us.

## THE MARKET LEADER WITH OVER 40 DIFFERENT RANGES OF COVERS

## MEET THE TEAM

Since UK Custom Covers was founded in 2006, our team has grown significantly. In the early years, the company was run by just the two directors. However, over the last 10 years, we've experienced substantial growth.

Today, we are proud to have a dedicated team of around 35 members of staff and this number continues to expand as we evolve. Our talented and passionate team is key to delivering the high-quality products and services that our customers rely on.

## OUR FACILITY & JOURNEY

### UK Custom Covers: Our Journey of Growth

From humble beginnings in a loft, UK Custom Covers has steadily evolved into a thriving business that continues to expand and adapt to meet the growing demand for our custom products.

### Starting Small: The Loft Years

UK Custom Covers began in the loft of our two directors, a modest space that sparked the vision of a company dedicated to providing high-quality custom covers. Our passion for craftsmanship and customer satisfaction drove us forward, and soon we were ready to take the next step.

### The First Expansion: A Storage Unit in Portsmouth

Our first big move was to a storage unit in Portsmouth, where UK Custom Covers would call home for the next four years. This space provided the foundation we needed to grow, and with it came our first significant leap in business. As demand for our products continued to rise, it became clear that we needed to scale our operations even further.

### A New Chapter: Port Solent Offices and Dorset Fulfilment Centre

The growth of UK Custom Covers meant it was time to make a bigger move. We expanded our operations with a fulfilment centre in Dorset to handle all orders efficiently, while our offices were relocated to Port Solent, Portsmouth. This location would serve as our home for the next seven years, allowing us to streamline our operations and better serve our customers.

### Another Leap Forward: Fareham Headquarters

As our success continued, we outgrew our Portsmouth location and took another ambitious step. We moved into a spacious 15,000 square foot facility in Fareham, where we could finally bring all operations under one roof, housing both our offices and warehouse in one location. This was a major milestone in our journey, offering us room to grow and streamline processes even further. Then another unit 30,000 square foot.

## PERSONALISATION OPTIONS

### EMBROIDERY

In addition to our comprehensive selection of seat covers, we offer the option to personalise them with custom embroidery. Whether for personal or business use, adding a logo can provide the perfect finishing touch to your new seat covers.

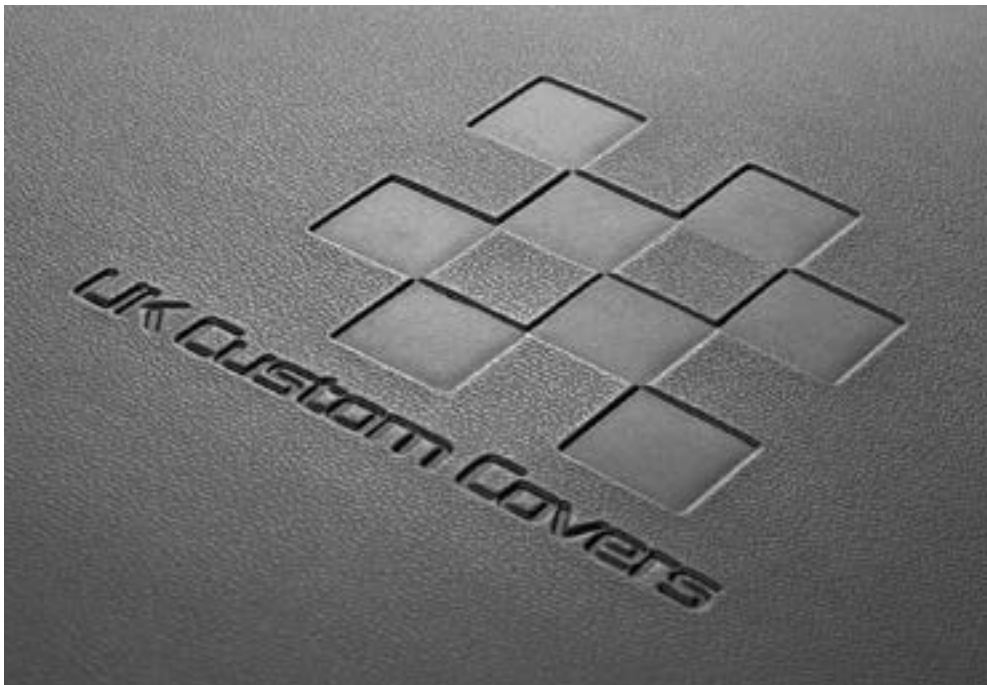

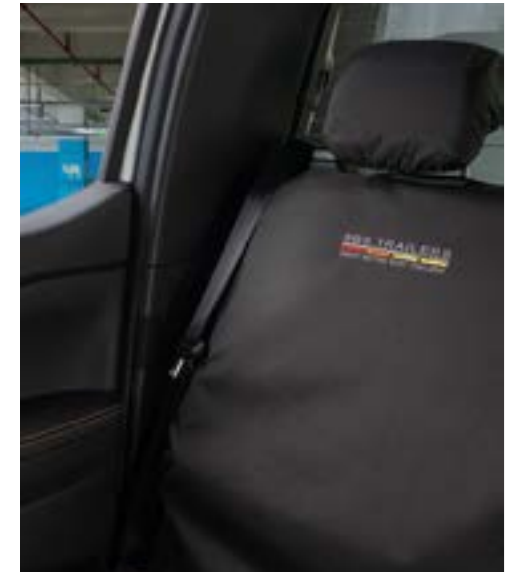

### EMBOSSING

We also provide an embossing service for those looking to add a distinctive touch to their seat covers. Please note that embossing is not carried out onsite and must be arranged in advance. If you would like to explore this option, our team will be happy to assist—simply get in touch to discuss your requirements.

Embroidering or embossing your company logo onto your seat covers will give your vehicle a professional and distinctive appearance. While many businesses display branded signage on the exterior of their vehicles, showcasing your logo on the interior of your seat covers allows you to advertise your brand from both sides. This not only enhances the overall look of your fleet, but also sets you apart from competitors, giving your vehicles a complete corporate look.

We use a state-of-the-art custom embroidery machine on-site, and in just a few simple steps, we can digitise your company logo to feature on your seat covers. With an extensive range of premium quality embroidery threads at our disposal, we can embroider logos or text onto any of our seat covers. Whether you choose our universal or tailored covers, we ensure your needs are fully met. **Please note that embossing is available by special order only. Please contact our sales team for more information.**

The finished product looks luxury

# UNIVERSAL SEAT COVERS

## MATERIAL SPECIFICATIONS

Our universal seat covers are crafted from premium 600 denier polyester, enhanced with a waterproof polyurethane coating. This material undergoes stringent testing in laboratory conditions to guarantee superior protection for your original seats against all environmental elements. The testing includes evaluations of material weight, breaking strength, tear strength, and waterproof capabilities, with a hydrostatic head rating of 700mm.

Our fabric complies with EU REACH standards and has passed the SGS rub test for durability, enduring up to 100,000 rubs. This ensures the seat covers are tough and resilient, effectively preventing tears and scuffs. We prioritise quality above all, offering you reliable, long-lasting protection for your vehicle's seats.

5 YEAR MANUFACTURER GUARANTEE

In addition to its superior durability and protection, our universal seat cover material has also been tested to ensure it can withstand personalisation. Using our in-house embroidery service, we can add custom designs, logos, or text to the seat covers without compromising their strength or functionality. This makes it easy to tailor the seat covers to your specific preferences while maintaining the high-quality standards we uphold. Whether for branding or personal flair, our material is perfectly suited for embroidery, offering both style and reliability.

## UNIVERSAL QUICK FIT SEAT COVER

Our quick fit seat cover has been designed for effortless fitting and removal in just seconds. It is a one-piece cover that covers the face of the seat, secured in place with a flap over the headrest and an elastic strap around the back of the cover to ensure a snug fit. Ideal for those looking for a simple, no-fuss solution.

## UNIVERSAL SINGLE FRONT SEAT COVER

Our universal front seat cover is designed to fit most single seats in cars and vans. It features an elasticated apron around the front for a snug fit, along with velcro fastenings that allow easy access to armrests. Additionally, the cover includes integral headrests for added convenience.

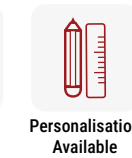

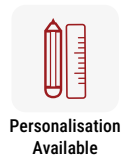

## UNIVERSAL SINGLE FRONT FLEXI SEAT COVER

Our flexi front seat cover has been specifically designed to fit larger seats in cars and vans. It incorporates a Lycra-like stretchy panel, allowing the cover to expand and comfortably fit over bulkier seats. The cover also features an elasticated apron around the front, velcro fastenings for easy access to armrests, and integral headrests for added convenience.

Stretch material at the back for an easy and quick fit.

1244	Front	Driver or passenger	● ●	With armrest access

## UNIVERSAL DOUBLE FRONT SEAT COVER

Our universal double front van seat cover is designed to fit most commercial vans. This single-piece cover provides full coverage, including access to seat belts, and covers the headrests for added protection. It also features an elasticated apron around the front for a secure and snug fit, ensuring it stays in place during use.

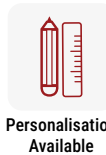

## UNIVERSAL DOUBLE FRONT FLEXI SEAT COVER

Our flexi double front van seat cover has been specifically designed to fit larger commercial van seats, such as those in the Transit van and Mercedes Sprinter. It incorporates a Lycra-like stretchy panel, allowing the cover to expand and comfortably fit over bulkier seats, providing a secure and snug fit.

Stretch material at the back for an easy and quick fit.

## UNIVERSAL REAR SEAT COVER

1250, 1251, 1252, 1253

Our universal rear seat covers come in four different sizes, designed to fit cars, pick-ups, and vans of all sizes, ensuring compatibility with a wide range of rear seats. The cover features velcro at the top, providing easy access to the headrests, while also allowing full access to seat belts. To keep the cover securely in place, it is fitted with an elasticated apron at the front and a velcro strip that attaches under the base of the seat, ensuring a snug and stable fit.

## UNIVERSAL SINGLE TRUCK SEAT COVER

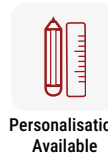

Our universal truck seat cover is crafted to offer a versatile fit for a broad range of seats in heavy goods vehicles. Designed with convenience in mind, it features access points on either side to accommodate integrated seat belts for both driver and passenger seats. The cover is made in a single piece, ensuring ease of installation and a streamlined look. It stays securely in place thanks to an elasticated apron around the front and velcro attachments at the base, providing a snug and reliable fit.

## UNIVERSAL DOUBLE TRUCK SEAT COVER

Our universal double truck seat cover is crafted to offer a versatile fit for a broad range of seats in heavy goods vehicles. Designed with convenience in mind, it features access points to accommodate seat belt buckles. The cover is made in a single piece, ensuring ease of installation and a streamlined look. It stays securely in place thanks to an elasticated apron around the front of the cover, providing a snug and reliable fit.

# TAILORED VAN SEAT COVERS

## MATERIAL SPECIFICATIONS

We offer two types of material for our van seat covers: 600 denier polyester and 600 denier cotton-backed polyester. The key difference between the two is that the cotton-backed polyester is an upgraded option, providing enhanced durability. The cotton backing adds an extra layer of strength, making it more resistant to wear and tear, while still maintaining the same high-quality appearance and fit. Both materials ensure reliable protection, but if you're looking for added resilience, the cotton-backed polyester offers an ideal upgrade for even tougher demands.

Both our cotton backed, and non-cotton backed tailored seat covers are crafted from premium 600 denier polyester, enhanced with a waterproof polyurethane coating.

This material undergoes stringent testing in laboratory conditions to guarantee superior protection for your original seats against all environmental elements. The testing includes evaluations of material weight, breaking strength, tear strength, and waterproof capabilities, with a hydrostatic head rating of 700mm. Our fabric complies with EU REACH standards and has passed the SGS rub test for durability, enduring up to 100,000 rubs. This ensures the seat covers are tough and resilient, effectively preventing tears and scuffs. We prioritise quality above all, offering you reliable, long-lasting protection for your vehicle's seats. The material we use not only guarantees durability and protection but also delivers an ultra-smart, sleek appearance. Designed to compliment the interior of any vehicle, it offers a stylish, modern aesthetic that enhances the overall look of your seats. Additionally, the material ensures a completely tailored fit, providing a snug and precise coverage that stays in place, seamlessly integrating with the contours of your seats. This combination of style and custom fit makes our seat covers a perfect blend of functionality and visual appeal.

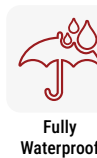

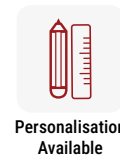

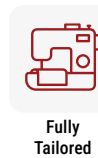

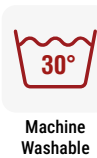

In addition to its superior durability and protection, our tailored van seat cover material has also been tested to ensure it can withstand personalisation. Using our in-house embroidery service, we can add custom designs, logos, or text to the seat covers without compromising their strength or functionality. This makes it easy to tailor the seat covers to your specific preferences while maintaining the high-quality standards we uphold. Whether for branding or personal flair, our material is perfectly suited for embroidery, offering both style and reliability.

## MATERIAL SPECIFICATIONS

We offer two types of material for our pick-up truck seat covers: 600 denier polyester and 600 denier cotton-backed polyester. The key difference between the two is that the cotton-backed polyester is an upgraded option, providing enhanced durability. The cotton backing adds an extra layer of strength, making it more resistant to wear and tear, while still maintaining the same high-quality appearance and fit. Both materials ensure reliable protection, but if you're looking for added resilience, the cotton-backed polyester offers an ideal upgrade for even tougher demands.

Both our cotton backed, and non-cotton backed tailored seat covers are crafted from premium 600 denier polyester, enhanced with a waterproof polyurethane coating.

This material undergoes stringent testing in laboratory conditions to guarantee superior protection for your original seats against all environmental elements. The testing includes evaluations of material weight, breaking strength, tear strength, and waterproof capabilities, with a hydrostatic head rating of 700mm. Our fabric complies with EU REACH standards and has passed the SGS rub test for durability, enduring up to 100,000 rubs. This ensures the seat covers are tough and resilient, effectively preventing tears and scuffs. We prioritise quality above all, offering you reliable, long-lasting protection for your vehicle's seats. The material we use not only guarantees durability and protection but also delivers an ultra-smart, sleek appearance. Designed to complement the interior of any vehicle, it offers a stylish, modern aesthetic that enhances the overall look of your seats. Additionally, the material ensures a completely tailored fit, providing a snug and precise coverage that stays in place, seamlessly integrating with the contours of your seats. This combination of style and custom fit makes our seat covers a perfect blend of functionality and visual appeal.

In addition to its superior durability and protection, our tailored pickup truck seat cover material has also been tested to ensure it can withstand personalisation. Using our in-house embroidery service, we can add custom designs, logos, or text to the seat covers without compromising their strength or functionality. This makes it easy to tailor the seat covers to your specific preferences while maintaining the high-quality standards we uphold. Whether for branding or personal flair, our material is perfectly suited for embroidery, offering both style and reliability.
